

# Aster- The Manor

*One-Bedroom, 1,131 sq. ft.*

Natural light streams in from a large bay window, and newly renovated interiors give the Aster a fresh, open feel. A den off the living room presents an opportunity for you to define the space as your own: Entertainment center? Office? Hobby room or reading nook? The master features a sizeable in-suite bath and walk-in closet, and the home offers a half-bath for guests.
