

# Heather- The Lodge

## Two-Bedroom, 1,625 sq. ft.

Covenant Woods' second-largest floor plan onto to the Hyacinth, the Heather is a sprawling apartment with two identical master suites – perfect for roommates, residents with visiting children or guests, or couples who prefer separate bedrooms. The Heather is one of few homes that includes an added den – great for a home office, entertainment center, or craft room. A balcony stretching the length of the open living and dining room overlooks The Lawn – making it a perfect place to enjoy a morning coffee, evening meal – and people-watch. A large walk-in closet accompanies each master suite. The Heather is also the only apartment floor plan that offers a third half bathroom for guests.
