

Hickory- Cottage

Two-Bedroom, 1,855 sq. ft.

One of Covenant Woods' newest and largest cottages, the Hickory's Craftsman-style design offers an open floor plan, high ceilings, and abundant storage. For those individuals or couples who are looking to downsize – but perhaps not as much – the Hickory is a perfect fit. Natural light flows throughout the cottage, while covered porches and patios extend your living space outdoors. Unique to the Hickory is a private den off the main living space, providing residents with a quiet room for a home office, entertainment center, or craft room. The Hickory also provides a half-bath for guests. The Brookview neighborhood is only a short walk or ride away from the amenities of both The Manor and The Lodge.
