

Mulberry-Cottage

Two-Bedroom, 1,520 sq. ft.

The Mulberry's Craftsman-style design offers an open floor plan, high ceilings, and plenty of space for those looking for a maintenance-free lifestyle but aren't quite ready to give up the independence of living in a house. High windows provide an abundance of natural light throughout the cottage, while covered porches and patios extend your living spaces outdoors. Serve up guests at the large kitchen island, though if you don't feel like cooking, the Brookview neighborhood is only a short walk or ride away from the amenities of both The Manor and The Lodge. Brookview residents also enjoy easy access to the five-acre pond and pond trail, which begins at the foot of the neighborhood.
