

MEMORANDUM

TO: Manor East Residents and Responsible Parties
FROM: Carrie Davis, Administrator CP/lm
DATE: February 18, 2021
RE: Updates

Positivity Rates:

The Hanover county positivity rate has dropped to 9.9% this week. This is a very positive change and in-line with the changes we have seen for the entire state. In-person visits are still suspended except for compassionate care.

Vaccine Update:

Our final vaccination clinics will be held next week. Only those still in need of their second dose of vaccine will participate. If you have any questions, please contact your unit manager.

Vaccination status falls in the health privacy category. While an individual may share their vaccination status with anyone they choose, Covenant Woods will not identify specific individuals (residents, staff, or vendors) by their vaccination status.

Visitation Plan:

Google Duo calls are available to Manor East residents. To allow every resident assisted access to these visits we are scheduling one call weekly. Calls for assisted living and health care residents are coordinated with Lauren Marwitz, Recreation Manager at 804-569-8713 and calls for Memory Support are coordinated with Tara Beatty, AL Social Services Coordinator at 804-417-9134. Compassionate care visits are provided under separate criteria. Questions should be directed to your Resident Services representative. A resident or visitor's vaccination status does not change the plan.

Planning for the Future:

As the Centers for Disease Control (CDC) releases new information regarding vaccination, response to exposure, and response to contracting the COVID virus, the Centers for Medicare and Medicaid Services (CMS) continues to evaluate relevant regulations to determine when changes should be made. This is an on-going process and CMS has indicated they do not have enough information at this time to allow any changes to current restrictions. There is indication that change is coming, though it may be in very incremental steps. We will continue to update you on any changes CMS determines may be made.

Notifications:

When we need to make changes (like isolation) that affect a group of residents, we will use the SARA phone messaging system.

When there is a change in a single resident's status (like isolation) we will call the responsible party directly.

Current COVID Status:

Cumulatively, since the beginning of the pandemic, the total number of people, that have tested positive for COVID-19, are listed in the chart below.

	Cumulatively
	<u>Employees</u>
Health care	14
Assisted living	13
Independent living	8

	<u>Residents</u>
Health care	3
Assisted living	0
Independent living	2

	<u>Vendors</u>
Manor East	8
Independent living	3

Stay safe.
