

MEMORANDUM

TO: Manor East Residents and Responsible Parties
FROM: Carrie Davis, Administrator 
DATE: June 3, 2021
RE: Updates

The Hanover County positivity rate is currently 2.2%.

Changes to the Screening Process:

Effective Monday, June 7, all Manor East visitor and vendor screening will be done at the Manor East Entrance. The screening station at Brooks Farm Road will remain closed after Sunday. This is due to changes in campus access for our independent living visitors and vendors.

Visitors should plan to enter campus at the main gate. The gate will be open to all traffic between 7am and 8pm, seven days a week. After 8pm, anyone with a Visitor's Badge or current day's wristband will be allowed access through the gate. Other visitors should arrange for their name to be placed on the access list prior to their visit to expedite access. All visitors to Manor East will be required to screen at the Manor East entrance upon their initial arrival each day.

Continued Restrictions:

Manor East, as all healthcare settings, remains under greater restrictions than other industries or businesses. This means that while we enjoy more visitor access, continued mask use and distancing are still required by residents, visitors, and staff. And we are still limited to two (2) visitors in a resident's room at the same time. We appreciate your continued compliance and patience.

Questions about Protocols:

General questions about visitation can always be directed to your social services representative or unit manager. For residents who reside in health care, contact Lauren Duval, Social Worker at 804-569-4208 or LaFon Kinchen, Health Care Unit Manager at 804-569-8093. For residents who reside in assisted living, contact Tara Beatty, Assisted Living Social Services Coordinator at 804-417-9134 or Sharonda Robinson, Assisted Living Unit Manager, at 804-569-8150.

Visitor Access Quick Reference:

We have posted our current visitor guidelines on our website under the COVID-19 Response banner. You will find a new link under that page called "Visitor Protocol", which can be found on the left of the COVID-19 Response page.

Current Covid Numbers:

Cumulatively, since the beginning of the pandemic, the total number of people that have tested positive for COVID-19, are listed in the chart below.

	Cumulatively Since March 2020	
	<u>Employees</u>	<u>Residents</u>
Health care	16	3
Assisted living	15	0
Independent living	8	2
	<u>Vendors</u>	
Manor East	8	
Independent living	4	

Stay Safe.
